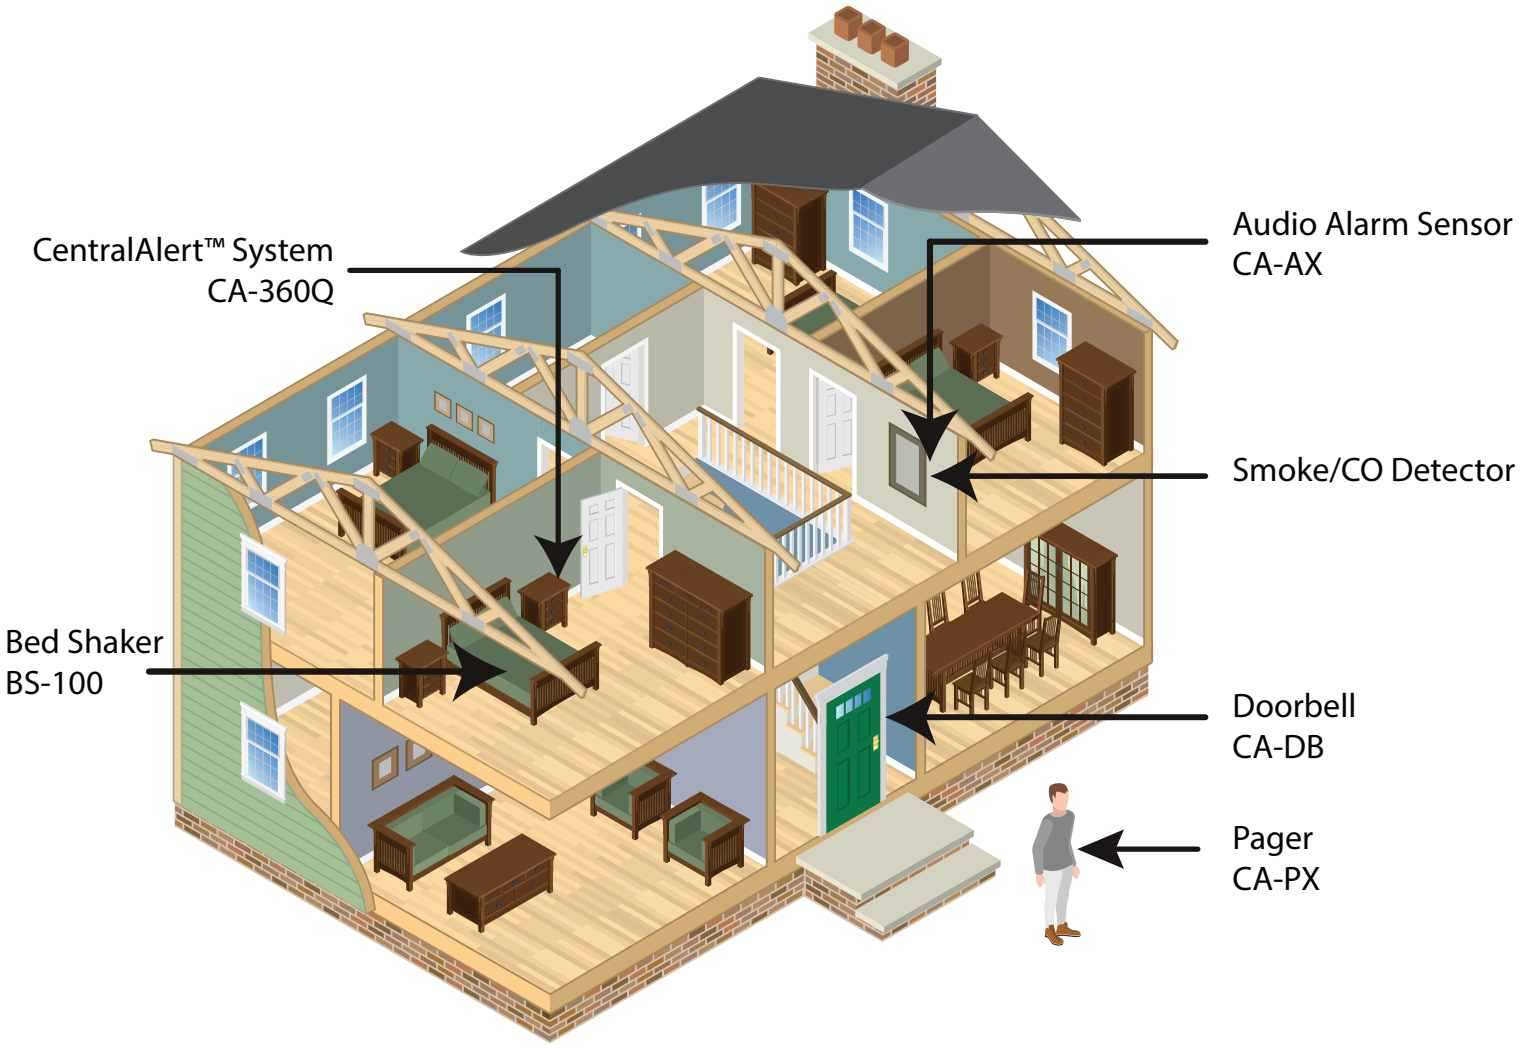
CA-360Q KY Kit C

Landline, Smoke/CO and Doorbell Notification System
for Deaf, Hard of Hearing and Deaf Blind users

Teltex
Always Hear for You



The CA-360Q not only wakes you up for work or school with its built-in alarm clock, it becomes the CentralAlert™ receiver for your entire home. This customized kit alerts you to all types of events in your home such as the door bell, telephone ringing and smoke/CO alarm. With the CA-PX pager, you have the freedom to go anywhere in the home, even outside, without missing any alerts in the home.*

**150 ft range between transmitters and receivers. Actual distance varies according to house construction.*

CA-360Q

The CA-360Q provides bright flashing patterns and adjustable ring tones to alert you to an incoming call, doorbell or smoke alarm. Connect the included BS-100 Bed Shaker to be alerted to all of those same events, even while you sleep. 150 foot range between transmitters and receivers.

CA-PX

The CA-PX is a wearable, tactile pager with Braille buttons providing a complete notification system that receives alerts about activities occurring in the home. Receive alerts through strong, easily identifiable vibrations, selectable audio tones and a bright flasher.

CA-AX

The CA-AX Fire Alarm Transmitter can be placed next to any smoke or CO detector which sends an immediate signal to both the CA-360Q and the CA-PX pager if the smoke or CO detector is activated.

Smoke/CO

The Smoke/CO detector offers both smoke and carbon monoxide detection. A 10-Year Lithium battery comes pre-installed.
